

Dear Water User:

March 22, 2006

The assessment notice that you have received represents the dollar amount due for both the 2004 and 2005 irrigation season. Last year due to an oversight, the assessment notices were not generated and sent out to the water users. Unfortunately this means the assessments may be double the normal amounts because you are being assessed for both years (2004 and 2005) water use. We apologize for any inconvenience this may have caused. If you have questions, feel free to call me at 1(801) 538-7431.

Sincerely,

John S. Larsen
